

ULTRA Tec 500

Compaction for Zinc Phosphate Layers

ULTRA Tec 500, 480x magnification

Structure of Layer

Finely crystalline inorganic layer

Light grey colouring

Application

Post-treatment of zinc phosphate layers (thick-layer phosphating SURFACOTE 480)

Immersion process (rack and barrel)

Gives a zinc phosphate layer constant coefficients of friction

Improvement of the running-in characteristics of machine parts

Increases the corrosion protection of zinc phosphate layers

Can also be used in combination with SURFASEAL 85 and SURFASEAL 100

IMDS-Number: 26836372

Additives for the ULTRA Tec 500 Bath

ULTRA Tec 500 Densit (make-up concentrate)

ULTRA Tec 500 Endurion (maintenance concentrate)

SURFA-cor

Special Features

ULTRA Tec 500 does not contain any chromium
